

## **Experian Launches Auto History Report Service.**

Experian, a leading provider of global information solutions, announced the launch of its new auto History report ([www.e-autohistory.com](http://www.e-autohistory.com)) an online service for car buyers and sellers. Auto History is powered by Experian's National Vehicle Database comprised of over 11 billion records on more than 315 million vehicles and is the world's largest database of its type.

The service helps consumers protect themselves against title and odometer fraud, lemon cars, salvage vehicles and other hidden conditions that can affect the safety and value of their next vehicle.

For more information visit their website at [www.experian.com](http://www.experian.com).
